DETAILED ACTION

Claims 36-67 are pending in this application.

Action Summary

1. Examiner acknowledges the cancellation of claims 7-30 and 32-35 and the addition of claims 36-67.
2. The rejection of claims 7-30 and 32-35 under 35 U.S.C. 103(a) over Kovacs et al. is hereby withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 36-50 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kovacs et al. (US Pat. No. 3,992,556).

See rejection dated January 27, 2000.

Response to Arguments

4. Applicant's arguments filed April 3, 2003 have been fully considered but they are not persuasive.

Applicants argue that Kovacs does not teach administering a therapeutically effective amount of iron as microencapsulated granules. It is the position of the examiner that Kovacs does in fact teach the claimed invention. As stated in previous offices actions Kovacs teaches microencapsulated iron granules. These granules are

then added to breakfast foods following a toasting process to adhere the granules to the foods. It is the position of the examiner that since the prior art teaches that the granules are softened by the heat to adhere the particles to the food; the iron granules are still in microencapsulated form using the fat as an adhesive.

Disposition of Claims

5. Claims 36-50 stand rejected.
6. Claims 51-67 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
